

## 2018 Used Sany Concrete Pump Truck 49m SY5333THB 490C-8 5 Section

### Basic Information

- Place of Origin: CHINA
- Brand Name: SANY
- Model Number: SYM5333THB 490C-8
- Minimum Order Quantity: 1 UNIT
- Price: Negotiatel
- Packaging Details: N/A
- Delivery Time: 25 Days
- Payment Terms: L/C, T/T
- Supply Ability: 30/unit/month

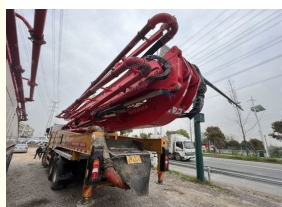

### Product Specification

- Drive Mode: 3\*2
- Manufacturer: SANY
- YEAR: 2018
- Dead Weight: 33t
- Max.Speed: 90
- Max. Delivery Height: 48.1m
- Model: SY5333THB 490C-8
- Chassis Brand: SANY
- Section: 5
- Oil Tank: 320L
- Highlight: 5 Section Concrete Pump Truck Used, 2018 Used 49m Concrete Pump Truck, 2018 Sany Concrete Pump Truck

## Product Description

### 2018 Used Sany Concrete Pump Truck 49M

#### Product Description:

Used Concrete Pump Truck is a reliable and cost-effective solution for construction sites with its powerful 200kw engine, heavy-duty 23t weight, two pump cylinders and 2020 year of manufacture. It is available in three colors: yellow, red and white. This used concrete pump truck is ideal for efficient and safe concrete delivery and placement. It is designed for long-term durability with superior performance, great efficiency and minimal downtime, making it an ideal choice for used concrete pumps for sale. With used concrete boom pump for sale, you can be sure of the quality, reliability and cost-effectiveness of our Used Concrete Pump Truck.

#### Features:

Used concrete pump trucks are an efficient and cost-effective solution for construction companies that want to achieve faster and more precise placement of concrete. These trucks are designed with long booms or arms that provide extended reach and allow for concrete placement in hard-to-reach areas. Furthermore, they offer versatility, as they can be used for various types of projects such as residential, commercial, and infrastructure projects.

Using a concrete pump truck also results in time and cost savings, by reducing the need for manual laborers. Moreover, they help to improve the quality of the finished concrete structures by ensuring a consistent flow and uniform distribution of concrete. Their capability for continuous and efficient concrete pouring contributes to increased productivity on construction sites, in addition to reducing site congestion and improving safety. Moreover, they are designed to be easily maneuvered and positioned with the construction site, ensuring flexible concrete placement.

#### Technical Parameters:

Parameter	Value
Pump Cylinder	2
Dimension	8.5m*2.2m*3.5m
Max. Pressure	12Mpa
Hopper Capacity	0.7m3
Model	Used Concrete Pump Truck
Manufacturer	SANY
Max. Delivery Height	36.1m
Max. Delivery Distance	150m
Capacity	900m3/h
Color	Yellow/Red/white

#### Applications:

##### High-rise Construction:

Concrete pump trucks are perfect for efficiently delivering concrete to the higher stories of tall structures where it would be difficult for manual labor and tower cranes to reach.

##### Infrastructure Projects:

Used concrete pump cars are helpful in supporting the transportation infrastructure by helping to pour large amounts of concrete for bridges, overpasses, dams, and roads.

##### Precast/tilt-up Construction:

The Continuous pour function of concrete pumps is extremely effective and highly productive when dealing with precast and tilt-up construction.

##### Industrial/Commercial Construction:

Warehouses, factories and parking structures use the fast pumping of concrete with pump trucks to quickly work on foundations and floors.

##### Tunneling Projects:

Concrete pumps are necessary for placing concrete in enclosed places such as tunnels, underground utility pathways and subways.

##### Underground Parking:

The boom and hose of concrete pumps can be utilized to effectively get concrete to far-reaching areas to create floors and ramps for under-grade parking lots.

##### Swimming Pools/Flatwork:

Through the help of concrete pumps, backyard and community swimming pools are able to create denser walls and floors in a residential setting.

### Remote/Rural Jobsites:

Concrete pump trucks are great for transporting and dispensing concrete in remote and rural locations where transit mixer delivery is not an option due to limited access.

### Support and Services:

We provide comprehensive technical support and services for our Used Concrete Pump Truck products. Our trained and certified technicians are available to provide ongoing maintenance and repair services. We also offer comprehensive installation services to ensure that your Used Concrete Pump Truck is properly assembled and functioning correctly. Additionally, we have a team of experienced customer service professionals available to answer any questions you may have regarding our products.

### Packing and Shipping:

The Used Concrete Pump Truck is packaged for shipping with the following items:

Wrapped in durable plastic and protective bubble-wrap

Packed in a custom wooden crate

Secured with heavy-duty straps

Labelled with shipping information
