# SANY 2020 Used Telescoping Boom Crane Truck 25Ton STC250C5 Stage VI

Our Product Introduction

## Basic Information

- Place of Origin: CHINA
- Brand Name: SANY
- Model Number: STC250C5
- Minimum Order Quantity: 1
- Price: Negotiate
- Delivery Time: 20days
- Payment Terms: T/T ,L/C
- Supply Ability: 10/unit/month

## Product Specification

- Max. Rated Total Lifting Capacity: 25 T
- Manufacturer: SANY
- Main Boom: 42.5M
- Jib Length: 8M
- Emission: Stage VI
- Overall Dimensions(L×W×H)mm: 13000*2550*3590
- Engine Modle: SC9DF300.1Q5
- Engine Rated Power: 220/2300kw/(r/min)
- Highlight: **25Ton Used Telescoping Boom Crane Truck**, **Stage VI Used Mobile Cranes**, **STC250C5 Used Mobile Cranes**

## Product Description

# 2020 Used Crane Truck STC250C5

## Product Description:

Used Mobile Crane - SANY

The Used Mobile Crane from SANY is a high-quality and reliable product that meets all your lifting needs. With its powerful capabilities and advanced technology, this mobile crane is the perfect solution for various construction projects.
As one of the leading manufacturers in the industry, SANY is known for its innovative and durable products. With years of experience and expertise, SANY has become a trusted and preferred brand for construction equipment.
Manufacturer: SANY

SANY is a well-known Chinese company that specializes in manufacturing heavy equipment for construction, mining, and other industries. With its commitment to quality and customer satisfaction, SANY has established a strong presence in the global market.
Counter Weight: 7ton

The Used Mobile Crane from SANY comes with a 7-ton counter weight, providing stability and balance during operations. This ensures safe and efficient lifting of heavy materials and equipment.
Manufacture Year: 2020

This mobile crane was manufactured in 2020, ensuring the latest and most advanced technology is incorporated into its design. This guarantees optimal performance and reliability for all your lifting needs.
Emission: Stage VI

The Used Mobile Crane from SANY is equipped with a Stage VI emission system, which complies with the latest environmental standards. This not only reduces emissions but also improves fuel efficiency, making it a more environmentally friendly and cost-effective option.
Overall Dimensions(L×W×H)mm: 13000*2550*3590

With its compact design, this mobile crane has overall dimensions of 13000*2550*3590mm, making it easy to maneuver and transport to different job sites. Its size also allows for maximum reach and lifting capacity.
**Key Features:**

SANY Truck Crane

Mobile Crane

Telescoping Boom

Lifting Capacity

The Used Mobile Crane from SANY is equipped with a telescoping boom that can extend to various lengths, providing flexibility and versatility in lifting operations. It also has a high lifting capacity, making it suitable for heavy lifting tasks.
Overall, the Used Mobile Crane from SANY is a top-of-the-line product that offers durability, efficiency, and advanced features. With its compact design and powerful capabilities, it is the perfect choice for any construction project. Contact us now to learn more about this product and how it can benefit your business.

## Features:

Product Name: Used Mobile Crane

Manufacturer: SANY

Engine Rated power: 221/1250kw/(r/min)

Max. rated total lifting capacity: 25 T

Counter weight: 7ton

Main Boom: 42.5M

| Manufacture Year | 2020 |
| Manufacturer | SANY |
| Max. Rated Total Lifting Capacity | 25 T |

| | |
|---|---|
| Overall Dimensions (L×W×H)mm | 13000*2550*3590 |
| Engine Rated Power | 221/1250kw/(r/min) |
| Main Boom | 42.5M |

## Applications:

Used Mobile Crane - SANY STC250C5

The SANY STC250C5 is a 110T truck crane designed and manufactured by the renowned Chinese company SANY. With its durable construction, precise engineering, and efficient performance, this crane is the perfect choice for all your lifting and transportation needs.
Application Scenarios

The SANY STC250C5 is suitable for various construction and engineering works, including but not limited to:
Building construction

Bridge construction

Road construction

Power plant construction

Pipeline construction

Industrial plant construction

Shipyard operations
Product Features

The SANY STC250C5 boasts the following features:
**Brand Name:** SANY

**Model Number:** STC250C5

**Place of Origin:** China

**Minimum Order Quantity:** 1

**Price:** Negotiate

**Delivery Time:** 30 days

**Payment Terms:** T/T, L/C

**Supply Ability:** 10 units/month

**Manufacture Year:** 2020

**Manufacturer:** SANY

**Emission:** Stage VI

**Engine Model:** SC9DF300.1Q5

**Maximum Travel Speed:** 90 km/h
Efficient and Safe Operations

The SANY STC250C5 is equipped with advanced technologies that ensure safe and efficient operations, such as:
**Load Moment Limiter:** This feature prevents overloading and ensures safe lifting.

**Boom Configuration:** The crane has a 5-section boom that can reach a maximum length of 43.5 meters, providing flexibility and precision in lifting and loading.

**Variable Pumps:** The variable pumps allow for precise control of the crane's movements, making it easier to operate in tight spaces.
Why Choose SANY STC250C5?

There are many reasons why SANY STC250C5 is the ideal choice for your lifting and transportation needs:
**Reliable Performance:** SANY is known for its high-quality and durable products, and the STC250C5 is no exception. It can work in various weather and terrain conditions, making it a versatile and reliable choice.

**Cost-Effective:** With its competitive price and low maintenance cost, the STC250C5 offers excellent value for your money.

**Easy to Transport:** The crane can travel at a maximum speed of 90 km/h, making it easier and faster to transport to different job sites.
Conclusion

The SANY STC250C5 is a top-of-the-line mobile crane that combines durability, precision, and efficiency. With its advanced features and reliable performance, it is the perfect choice for all your construction and engineering needs. Contact us now to negotiate the price and delivery time for your order.

## Customization:

Customized Services for Used Mobile Crane - SANY STC250C5

Brand Name: SANY

Model Number: STC250C5

Place of Origin: CHINA

Minimum Order Quantity: 1

Price: Negotiate

Delivery Time: 30 days

Payment Terms: T/T, L/C

Supply Ability: 10 units/month

Max. rated total lifting capacity: 25 T

Counter weight: 7 ton

Manufacturer: SANY

Maximum Travel Speed: 90 Km/h

Emission: Stage VI

With our Customized Services for Used Mobile Crane, you can get your hands on the top-quality and highly efficient SANY STC250C5. This mobile crane has a maximum lifting capacity of 25 T, making it suitable for a wide range of lifting operations. It is equipped with a 7-ton counter weight, ensuring stability and safety during use.
The STC250C5 is manufactured by SANY, a well-known and reliable brand in the industry. Contact us today to negotiate the price and receive your crane within 30 days!
Don't miss out on the opportunity to own a top-performing 110T XCMG truck crane. Contact us now to learn more about our Customized Services for Used Mobile Crane - SANY STC250C5.

## Packing and Shipping:

Packaging and Shipping of Used Mobile Crane

When purchasing a used mobile crane, it is important to consider the packaging and shipping options to ensure safe and timely delivery of the product. The following are the standard packaging and shipping practices for used mobile cranes:
Packaging:

In some cases, the crane may be partially disassembled for easier transportation. In such cases, the packaging will include detailed instructions for reassembling the crane.
Shipping:

Used mobile cranes are shipped either by land, sea, depending on the customer's location and preferences. The shipping method may also be determined by the size and weight of the crane.
For land transportation, the crane is loaded onto a flatbed truck and secured with straps and chains. The truck will then make its way to the destination, following the most efficient route possible.
For sea transportation, the crane is loaded onto a cargo ship and secured in place with heavy-duty chains and straps. The ship will then sail to the nearest port to the customer's location.
Regardless of the shipping method, the used mobile crane will be insured to protect against any possible damage or loss during transit. Upon arrival at the customer's location, the crane will be unloaded and delivered to the designated site. The customer may choose to install the crane themselves or hire professionals to do so.
In conclusion, proper packaging and shipping are crucial in ensuring the safe and timely delivery of used mobile cranes. By following these standard practices, customers can have peace of mind knowing that their crane will arrive in good condition and ready for use.
