

Used SANY SY5133THBE C10 Diesel Concrete Line Trailer Pump Truck Mounted 2019

Our Product Introduction

for more products please visit us on hnhzmachinery.com

Basic Information

- Place of Origin: China
- Brand Name: SANY
- Model Number: SY5133THBE C10
- Minimum Order Quantity: 1 Unit
- Price: Negotiable
- Packaging Details: Container/Ro-Ro Ship/Bulk ship
- Delivery Time: 15work days
- Payment Terms: L/C, T/T
- Supply Ability: 10/unit/month

Product Specification

- Engine Power: 136 KW
- Equipment Volume: 90m³/h
- Dimension: 9240*2500*3090mm
- Weight: 13490kg
- Year: 2019
- Chassis: YC4EG185-50
- Concrete Press: 11Mpa
- Power Type: Diesel
- Pumping Cylinder Diameter: 200mm
- Highlight: 2019 Year Concrete Line Trailer Pump ,
Used Concrete Line Trailer Pump ,
Used SANY Line Pump Concrete Truck

Product Description

SANY SY5133THBE C10 Diesel Concrete Pump

Product Description:

Equipped with a pumping cylinder diameter of 200mm, our Concrete Line Trailer Pump ensures a consistent and powerful flow of concrete throughout your project. The pump dimensions measure 9100*2450*3140mm, providing ample space for the operator to maneuver the pump in confined spaces.

The pump is mounted on a sturdy YC4EG185-50 chassis, ensuring durability and stability during operation. With a weight of 13605kg, this Concrete Line Trailer Pump is easy to transport and maneuver on your project site.

Our used Concrete Line Trailer Pump is a reliable and cost-effective solution for your concrete pumping needs. Whether you are working on a small residential project or a large commercial construction site, this pump is capable of handling your concrete pumping needs.

When you choose our Concrete Line Trailer Pump, you can trust that you are getting a quality product that is backed by our experienced team of professionals. We take pride in providing our customers with the best possible service and support, ensuring that your project runs smoothly from start to finish.

Investing in a Concrete Pump is a smart choice for any construction project. Our used Concrete Line Trailer Pump is a cost-effective solution that will help you save time and money on your project. With its powerful pumping capabilities and reliable performance, this pump is an asset to any construction site.

Features:

Product Name: Used Concrete Line Pump

Dimension: 9240*2500*3090mm

Equipment volume: 90m³/h

Weight: 13490kg

Pumping Cylinder Diameter: 200mm

Year: 2019

This product is a Used Concrete Line Pump, which has a pumping cylinder diameter of 200mm and a weight of 13490kg. It has an equipment volume of 90m³/h and was manufactured in September 2020.

Technical Parameters:

Construction Line Pump	
Chassis	YC4EG185-50
Power Type	Diesel
Weight	13490kg
Engine Power	136 KW
Dimension	9240*2500*3090mm
Year	2019
Equipment volume	90m ³ /h
Pumping Cylinder Diameter	200mm
Concrete Line Pump	SY5133THBE C10

Applications:

This diesel-powered concrete line pump has dimensions of 9100*2450*3140mm and weighs 13605kg. It has an equipment volume of 90m³/h, making it suitable for large-scale construction projects. Its compact size and high power make it an ideal choice for construction sites with limited space.

The SY5133THBE C10 model concrete line pump is perfect for a variety of applications and scenarios. It is commonly used for concrete line trailer pumping, which is a method of pumping concrete over long distances using a trailer-mounted pump. This method is used for projects where concrete needs to be pumped over long distances, such as high-rise buildings or bridge construction.

In addition to concrete line trailer pumping, this concrete line pump is also used for other pumping scenarios. It is commonly used for pumping concrete to hard-to-reach areas, such as basements or underground structures. It is also used for pumping concrete to elevated areas, such as roofs or upper floors of buildings.

The SY5133THBE C10 model concrete line pump is a versatile and reliable piece of equipment that is essential for any construction project. Its high efficiency and powerful performance make it a popular choice among contractors and builders worldwide. Whether you are working on a large-scale commercial project or a small residential construction job, this concrete line pump is the perfect choice for all your pumping needs.

FAQ:

Q: What is the brand name of this concrete line pump?

A: The brand name of this concrete line pump is SANY.

Q: What is the model number of this concrete line pump?

A: The model number of this concrete line pump is SY5133THBE C10.

Q: Where is this concrete line pump made?

A: This concrete line pump is made in China.

Q: What is the maximum pumping capacity of this concrete line pump?

A: The maximum pumping capacity of this concrete line pump is 90 cubic meters per hour.

Q: What types of concrete can be pumped using this line pump?

A: This line pump can pump different types of concrete, including but not limited to: lightweight concrete, shotcrete, self-consolidating concrete, and high-performance concrete.
