Product Description

Product Description:

Highly Reliable

- International authoritative-certificate lighthouse factory & world-class manufacturing capability
- Optimized essential parts with ultra-high-strength steel
- Open hydraulic system & high configuration
- SANY DEUTZ Engine

Strong Pumping

- A 10% increase in pumping efficiency
- smoother flow, less blockage, and meet long-time pumping need
- Dual-purpose machine: quickly transforms into a line pump
- Various boom types & flexible working posture
- Less site limitation, smaller footprint, more comprehensive placement range

Extremely Economical

- Advanced fuel combustion & intelligent power matching technology

Features:

Product Name: Used Concrete Pump Truck

Vertical Reach:55.1

Made Year: 2023

Boom Section: 6

Chassis: SANY

Factory Location: Changsha, China

Features: Beton Pump, Concrete Pump,SANY Concrete Pump Truck

Technical Parameters:

Product Name	Used Concrete Pump Truck

Applications:

The SANY SYM5440THB1C has a 6-section boom that provides a maximum vertical reach of 55.1 meters and a horizontal reach of 4.68 meters. This makes it suitable for a wide range of construction projects, including high-rise buildings, bridges, and tunnels.

One of the main advantages of the SYM5440THB1C truck-mounted concrete pump is its mobility. It can easily navigate through narrow streets and tight corners, making it ideal for urban construction sites. It can also be used in remote locations where access is limited, such as mining sites and oil rigs.

The SYM5440THB1C concrete pump truck is suitable for various applications, including pouring concrete for foundations, walls, and columns. It can also be used for concrete pumping in precast factories, tunnel construction, and for repairing damaged concrete structures.

Construction companies that require high-quality and efficient concrete pumping services can benefit from using the SYM5440THB1C. Its 6-section boom allows it to reach almost any height or distance, making it a valuable asset for any construction project.

In summary, the SYM5440THB1C is a reliable and efficient truck-mounted concrete pump that can be used in various construction scenarios.
