Product Description

Factory price 2017 year 5 axle 62 M Sany Brand used concrete pump truck with Mercedes Benz

2017 year 5 axle 62 M Sany Brand

Brand: **Sany**
 Chassis Brand: Mercedes Benz
 Weight :53 Tons
 Meter: 62 M
 Manufacturer year: 2017

Features:

Highly Reliable
 Strong Pumping
 Extremely Economical
 Ultimate User Experience

The reasons for choosing to buy a used cement pump truck mainly include the following:

Price advantage:

The price of a used pump truck is usually 40% to 50% cheaper than a new one, especially for a pump truck within 3 years of age, which has the highest cost-effectiveness.

Low maintenance cost:

The parts of a new car may not be available in most repair shops, while the parts of a used pump truck are easier to obtain, reducing the uncertainty and cost of repairs.

Various choices:

For consumers with limited budgets, used pump trucks provide more choices, and they can choose models with better performance within a limited budget.

High value retention rate:

The value retention rate of a used pump truck is usually higher than that of a new car, which means that the loss of a used car is smaller when changing cars.

Easy to operate:

The use and maintenance of a used pump truck is usually simpler, the running-in period is shorter, and it is faster to get started.

Strong practicality:

The main purpose of buying a used pump truck is practicality, not face, so cost-effectiveness is the primary consideration.
