

XCMG 52M 2022 Concrete Pump Good Price Vietnam - Sitrak Chassis Trusted Supplier

Our Product Introduction

for more products please visit us on hnhzmachinery.com

Basic Information

- Place of Origin: China
- Brand Name: XCMG
- Model Number: HB52V
- Minimum Order Quantity: 1 Unit
- Price: Negotiable
- Packaging Details: N/A
- Delivery Time: 10days
- Payment Terms: L/C, T/T
- Supply Ability: 10/unit/month

Product Specification

- Made Year: 2022
- Vertical Reach: 52
- Engine Model: OM501LA.V/3
- Engine Power: 300Kw
- GVW (Kg): 35000
- Split Type: Skirt Valve

Product Description

XCMG 52M 2022 Concrete Pump Good Price Vietnam - Sitrak Chassis Trusted Supplier

The Rising Star: China's Used Concrete Pump Truck Exports to Worldwide

As a specialist in global construction equipment trade, I've witnessed an undeniable trend: Chinese used concrete pump trucks are revolutionizing job sites worldwide. From the skyscrapers of Dubai to the infrastructure projects in Nairobi, these second-hand workhorses are becoming the go-to choice for cost-conscious contractors.

Why the World is Choosing Chinese Used Pump Trucks

1. Unbeatable Value Proposition

A new European pump truck can cost \$500K+, while a quality used Chinese model (3-5 years old) delivers comparable performance at 40-60% savings

Brands like Sany, Zoomlion and XCMG now offer 80% of premium performance at half the price

2. Global Readiness

Modern Chinese models (2018+) meet EU Stage V and EPA Tier 4 emissions standards

Increasing availability of multi-language manuals and control systems

3. Emerging Market Dominance

Africa: Nigeria and Kenya import 300+ units annually for urban development

Southeast Asia: Vietnam and Philippines favor 37-52m boom pumps for high-rise projects

Middle East: UAE and Saudi Arabia buy refurbished units for temporary projects

Smart Buying Tips for Global Buyers

Focus on Post-2017 Models - Significant quality improvements in hydraulics and electronics

Verify Maintenance History - Look for units with under 8,000 operating hours

Choose the Right Boom Length

28-37m for residential projects

47-52m for commercial towers

Inspect for Climate Adaptations - Desert-used units vs. tropical climate units vs Cold Area units.

The Future is Bright

With Chinese manufacturers improving quality and global support networks expanding, I predict:

30% annual growth in used exports through 2027

Certified pre-owned programs becoming standard

Hybrid models gaining market share

For contractors worldwide, Chinese used pump trucks represent the smartest way to maximize capabilities while minimizing costs. The revolution is here - will you be part of it?
