

Used Concrete Pump Truck 36.2m Max Reach 180 M3/h Output

Our Product Introduction

for more products please visit us on hnhzmachinery.com

Basic Information

- Brand Name: Sany
- Model Number: SYM5445THB
- Minimum Order Quantity: 1
- Price: Negotiate
- Packaging Details: N/A
- Delivery Time: 7 Days

Product Specification

- Max Concrete Output: 180 M3/h
- Slewing Angle: $\pm 270^\circ$
- Boom Model: M37z
- Depth: 40.2m
- Marketing Type: Ordinary Product
- Type: 2025 Concrete Mixer Pump Truck
- Keyword: Concrete Pump Truck
- Max Vertical Reach: 36.2m
- Highlight: **36.2m concrete pump truck,
center opening elevator door pump truck,
used concrete pump truck with warranty**

Product Description

Product Description:

Are you in need of a reliable Truck-mounted Concrete Pump for your construction projects? Look no further than our exceptional Used Concrete Pump Truck. This product is classified as an Ordinary Product, making it suitable for various construction applications. Equipped with a Rack sling type, this concrete pump truck ensures efficient and precise pumping operations. The Rack sling type enhances the stability and accuracy of concrete placement, making it a valuable asset for any construction site. Operating at a pressure of 12Mpa, this concrete pump truck delivers consistent and powerful performance. The high-pressure capability ensures that concrete is pumped smoothly and effectively, helping you streamline your construction processes. With a power output of 324 KW (441 HP), this Truck-mounted Concrete Pump is designed to handle demanding tasks with ease. The robust power of 441 HP enables the pump to operate efficiently, delivering reliable pumping performance for your construction projects. One of the standout features of this concrete pump truck is its impressive Slewing Angle of $\pm 270^\circ$. The wide slewing angle allows for flexible positioning and accurate concrete placement, making it an ideal choice for projects that require precise pumping capabilities. Whether you are working on residential, commercial, or industrial projects, this concrete pump truck is a versatile and dependable solution. Its combination of high pressure, power, and slewing angle makes it a valuable asset for a wide range of construction applications. Investing in a quality Truck-mounted Concrete Pump like this can significantly enhance the efficiency and productivity of your construction projects. The reliable performance and advanced features of this concrete pump truck make it a valuable addition to any construction fleet. Don't miss out on the opportunity to own this top-tier concrete pump truck. With its exceptional features and capabilities, it is sure to elevate the performance of your construction operations. Get your hands on this reliable and efficient concrete pump truck today!

Features:

Product Name: Used Concrete Pump Truck
Type: 2025 Concrete Mixer Pump Truck
Boom Model: M37z
Pressure: 12Mpa
Depth: 40.2m
Emission Standard: Euro 3

Technical Parameters:

| | |
|---------------------|--------------------------------|
| Depth | 40.2m |
| Emission Standard | Euro 3 |
| Pressure | 12Mpa |
| Elevator Door | Center Opening Door |
| Boom Length | 39 Meters |
| Axle Config | 3 Axle |
| Type | 2025 Concrete Mixer Pump Truck |
| Max Concrete Output | 180 M3/h |
| Max Vertical Reach | 36.2m |

Applications:

Truck mounted concrete pumps, also known as Truck-mounted Concrete Pump, are versatile pieces of equipment that are essential in various construction projects. The Sany SYM5445THB model offers impressive features making it suitable for a wide range of application occasions and scenarios. With a maximum concrete output of 180 M3/h and a pumping pressure of 12Mpa, this truck-mounted concrete pump is ideal for projects that require efficient and high-volume concrete placement. Its impressive depth of 40.2m ensures that it can handle projects with varying height requirements. Whether you are working on a large-scale commercial construction project or a smaller residential development, the Sany SYM5445THB truck-mounted concrete pump can meet your needs. It is an Ordinary Product marketed for all types of construction applications. The minimum order quantity for this product is 1, and pricing is negotiable, making it accessible for both small and large construction companies. The delivery time of 7 days ensures that you can quickly receive the equipment and start using it on your project. Equipped with a rack sling type, the Sany truck-mounted concrete pump offers ease of operation and versatility on the construction site. Its reliable performance and efficient concrete pumping capabilities make it a valuable asset for any construction team. Whether you are pouring concrete for foundations, slabs, or vertical structures, the Sany SYM5445THB truck-mounted concrete pump is a reliable and efficient choice. Its high capacity, pressure, and reach make it suitable for a wide range of concrete placement needs.
