

Used Concrete Pump Truck 180 M3/h 39m Boom 3 Axle

Basic Information

- Brand Name: Sany
- Model Number: SYM5445THB
- Minimum Order Quantity: 1
- Price: Negotiate
- Packaging Details: N/A
- Delivery Time: 7 Days

Product Specification

- Axle Config: 3 Alex
- Keyword: Concrete Pump Truck
- Elevator Door: Center Opening Door
- Max Concrete Output: 180 M3/h
- Marketing Type: Ordinary Product
- Type: 2025 Concrete Mixer Pump Truck
- Sling Type: Rack
- Boom Model: M37z
- Highlight: **used concrete pump truck Euro 3, affordable concrete pump truck 441 HP, used concrete pump truck 180 M3/h**

Product Description:

A Truck-mounted Concrete Pump is an essential piece of equipment for any construction project requiring the efficient and precise delivery of concrete. This particular Used Concrete Pump Truck offers impressive capabilities to enhance your construction operations. With a Max Concrete Output of 180 M3/h, this concrete pump truck ensures a high level of productivity, allowing for the timely completion of concrete placement tasks. Whether you are working on a large-scale project or a smaller job, the efficiency of this pump truck will significantly contribute to the smooth progress of your work.

The Axle Config of this concrete pump truck is designed with 3 Axles, providing stability and maneuverability on various types of terrain. This configuration ensures that the truck can easily navigate construction sites and reach the desired location for concrete pouring without any hassle.

Equipped with a Center Opening Door, the Elevator Door of this concrete pump truck facilitates the loading and unloading of concrete materials with ease. The convenient design of the door enhances the overall operational efficiency, allowing for seamless workflow during the concrete placement process.

When it comes to reach and versatility, the Boom Length of 39 Meters on this concrete pump truck offers exceptional capabilities. The long reach of the boom allows for precise concrete placement even in challenging or hard-to-reach areas, making it an ideal choice for a wide range of construction projects.

Powered by a robust 324 KW (441 HP) engine, this concrete pump truck delivers the necessary power and performance to handle demanding concrete pumping tasks. The high horsepower ensures efficient operation of the pump truck, enabling it to meet the requirements of various construction applications with ease.

Investing in a reliable and high-performing concrete pump truck like this can significantly enhance the efficiency and productivity of your construction projects. The combination of advanced features, powerful performance, and durable construction makes this product a valuable asset for any construction team.

Whether you are involved in residential construction, commercial development, or infrastructure projects, having a dependable concrete pump truck like this in your fleet can make a real difference in the speed and quality of your work.

Don't miss out on the opportunity to acquire this well-maintained and efficient Used Concrete Pump Truck that offers exceptional capabilities for your concrete pumping needs. Upgrade your construction equipment with this reliable and versatile truck-mounted Concrete Pump to take your projects to the next level.

Features:

Product Name: Used Concrete Pump Truck
 Sling Type: Rack
 Axle Config: 3 Axle
 Boom Length: 39 Meters
 Type: 2025 Concrete Mixer Pump Truck
 Power: 324 KW (441 HP)

Technical Parameters:

Max Concrete Output	180 M3/h
Marketing Type	Ordinary Product
Boom Length	39 Meters
Axle Config	3 Alex
Boom Model	M37z
Max Vertical Reach	36.2m
Keyword	Concrete Pump Truck
Slewing Angle	±270°
Depth	40.2m
Sling Type	Rack

Applications:

Used Concrete Pump Truck from Sany, model SYM5445THB, is a versatile and reliable machine suitable for various construction projects. Whether you are in need of transferring concrete for building foundations, bridges, or high-rise structures, this concrete pump truck is an ideal solution.

With a maximum concrete output of 180 M3/h, this Used Concrete Pump Truck can efficiently handle large volumes of concrete, making it perfect for projects that require a significant amount of concrete to be pumped quickly and accurately. The boom model M37z and a max vertical reach of 36.2m ensure that the concrete can be easily and precisely placed at the desired location.

Powered by a robust 324 KW (441 HP) engine, this Concrete Pump Truck delivers the necessary power and performance to complete demanding construction tasks. The slewing angle of ±270° allows for flexible and precise positioning of the boom, making it easier to reach challenging areas on the construction site.

Whether you are a contractor, builder, or construction company, the Sany Used Concrete Pump Truck offers a cost-effective solution for

your concrete pumping needs. With a minimum order quantity of 1 and negotiable pricing, this product provides flexibility and convenience for your purchasing requirements.

When it comes to delivery, the Used Concrete Pump Truck ensures quick turnaround times, with a delivery time of just 7 days. This means that you can have the equipment on-site and ready for operation in a timely manner, helping to keep your construction project on schedule.

Overall, the Sany SYM5445THB Used Concrete Pump Truck is a reliable and efficient machine that is well-suited for a wide range of construction applications. Whether you are working on a small residential project or a large-scale commercial development, this Concrete Pump Truck will help you streamline your concrete pumping operations and achieve excellent results.
