

## Used 3 Axle Concrete Pump Truck 39m Boom Euro

3

Our Product Introduction

for more products please visit us on [hnhzmachinery.com](http://hnhzmachinery.com)

### Basic Information

- Brand Name: Sany
- Model Number: SYM5445THB
- Minimum Order Quantity: 1
- Price: Negotiate
- Packaging Details: N/A
- Delivery Time: 7 Days

### Product Specification

- Emission Standard: Euro 3
- Pressure: 12Mpa
- Max Concrete Output: 180 M3/h
- Type: 2025 Concrete Mixer Pump Truck
- Elevator Door: Center Opening Door
- Depth: 40.2m
- Keyword: Concrete Pump Truck
- Boom Length: 39 Meters
- Highlight: **used concrete pump truck with warranty,  
truck mounted concrete pumps versatile,  
axle config concrete pump center door**

## Product Description

### Product Description:

Looking for a reliable and efficient solution for your concrete pumping needs? Look no further than our Used Concrete Pump Truck, a versatile and powerful machine designed to make your concrete pouring jobs easier and more efficient.

With a slewing angle of  $\pm 270^\circ$ , this Truck-mounted Concrete Pump provides exceptional flexibility and reach, allowing you to easily navigate and access hard-to-reach areas with precision and ease. Whether you are working on a construction site or a renovation project, this Concrete Pump Truck's impressive slewing angle ensures that you can pour concrete accurately and efficiently.

The boom length of 39 meters on this Concrete Pump Truck offers extensive reach and coverage, making it ideal for projects of various sizes and scales. Whether you are pouring concrete on a high-rise building or a residential property, the 39-meter boom length provides the necessary reach to get the job done effectively and efficiently.

Equipped with a 3-axle configuration, this Truck-mounted Concrete Pump offers stability and maneuverability on different terrains, ensuring smooth operation and precise concrete pouring. The 3-axle design provides enhanced control and balance, allowing you to navigate challenging job sites with ease and confidence.

The boom model M37z on this Concrete Pump Truck is known for its reliability and performance, making it a trusted choice for contractors and construction professionals. With its robust construction and advanced features, the M37z boom model delivers consistent and high-quality concrete pumping results, helping you achieve your project goals with precision and efficiency.

As an Ordinary Product in the market, this Concrete Pump Truck offers a cost-effective and practical solution for your concrete pumping needs. Whether you are a contractor, builder, or construction company, this reliable and efficient machine is designed to enhance your workflow and productivity, allowing you to complete your projects on time and within budget.

Whether you are working on a commercial construction project, a residential development, or a renovation job, this Used Concrete Pump Truck is a valuable asset that can streamline your concrete pouring process and deliver exceptional results. Don't settle for anything less than optimal performance and efficiency when it comes to your concrete pumping needs.

### Features:

Product Name: Used Concrete Pump Truck

Max Vertical Reach: 36.2m

Emission Standard: Euro 3

Depth: 40.2m

Axle Config: 3 Axle

Marketing Type: Ordinary Product

### Technical Parameters:

Keyword	Concrete Pump Truck
Power	324 KW (441 HP)
Elevator Door	Center Opening Door
Emission Standard	Euro 3
Sling Type	Rack
Pressure	12Mpa
Max Concrete Output	180 M3/h
Axle Config	3 Alex
Marketing Type	Ordinary Product
Boom Model	M37z

### Applications:

When considering the product application occasions and scenarios for the Sany SYM5445THB used concrete pump truck, it is important to highlight its versatile capabilities and specifications. This reliable equipment is suitable for a wide range of construction projects, offering efficient concrete pumping solutions.

With a pressure capacity of 12Mpa and a powerful 324 KW (441 HP) engine, the Sany SYM5445THB used concrete pump truck is ideal for demanding construction sites that require high-performance equipment. Its boom length of 39 meters and slewing angle of  $\pm 270^\circ$  provide excellent reach and flexibility, making it suitable for projects of various sizes and complexities.

The maximum concrete output of 180 M3/h ensures quick and efficient concrete placement, making this pump truck a valuable asset for projects that require a steady supply of concrete. Whether it's for residential, commercial, or industrial construction, the Sany SYM5445THB can meet the demands of different application scenarios.

Customers can benefit from the flexibility of the Sany SYM5445THB used concrete pump truck, as it is available for a minimum order quantity of 1 unit. The pricing is negotiable, allowing for cost-effective solutions tailored to specific project requirements. Additionally, with a delivery time of 7 days, this pump truck offers quick turnaround times to meet project deadlines.

Overall, the Sany SYM5445THB used concrete pump truck is a reliable and efficient solution for a variety of construction projects.

Whether it's for building foundations, bridges, or infrastructure development, this equipment delivers high performance, durability, and versatility, making it a valuable asset in the construction industry.
