

Used Concrete Pump Truck 39m Boom 180 M3/h Output 324KW

Our Product Introduction

for more products please visit us on hnhzmachinery.com

Basic Information

- Brand Name: Sany
- Model Number: SYM5445THB
- Minimum Order Quantity: 1
- Price: Negotiate
- Packaging Details: N/A
- Delivery Time: 7 Days

Product Specification

- Slewing Angle: $\pm 270^\circ$
- Keyword: Concrete Pump Truck
- Max Vertical Reach: 36.2m
- Boom Model: M37z
- Boom Length: 39 Meters
- Axle Config: 3 Alex
- Depth: 40.2m
- Type: 2025 Concrete Mixer Pump Truck
- Highlight: **used concrete pump truck 441 HP,
Beton pump 180 M3/h output,
concrete pump truck 324 KW**

Product Description

Product Description:

A Used Concrete Pump Truck is a versatile and efficient machine that plays a crucial role in construction projects. Truck mounted concrete pumps are essential equipment for delivering liquid concrete to high or hard-to-reach areas on construction sites. This particular Concrete Pump Truck model offers exceptional performance and reliability, making it a valuable asset for any construction team. With a slewing angle of $\pm 270^\circ$, this Concrete Pump Truck provides flexibility and precision in maneuvering the boom to the desired location. The ability to rotate the boom ensures that the concrete can be accurately placed, even in challenging construction environments. Whether it's a residential building, commercial structure, or infrastructure project, this Concrete Pump Truck can deliver the concrete with ease.

Marketed as an Ordinary Product, this Concrete Pump Truck offers a cost-effective solution without compromising on quality or performance. The marketing type signifies that this machine is suitable for a wide range of construction projects, from small-scale developments to large-scale constructions. Its versatility and reliability make it a popular choice among construction professionals looking for a dependable concrete pumping solution.

The boom model of this Concrete Pump Truck is M37z, which is known for its durability and efficiency in reaching various heights and distances. The M37z boom model ensures that the concrete can be pumped with precision and accuracy, meeting the requirements of different construction scenarios. Whether it's vertical structures, horizontal surfaces, or overhead placements, the M37z boom model excels in delivering the concrete efficiently.

Operating at a pressure of 12Mpa, this Concrete Pump Truck is capable of handling a wide range of concrete mixes and densities. The pressure rating ensures that the concrete can be pumped smoothly and consistently, without any interruptions or blockages. This feature is particularly important in maintaining a steady flow of concrete during the construction process, enhancing productivity and efficiency on the site.

In conclusion, this Used Concrete Pump Truck is a reliable and efficient machine that offers exceptional performance in delivering concrete to construction sites. With its versatile slewing angle, durable boom model, cost-effective marketing type, and optimal pressure rating, this Concrete Pump Truck is a valuable asset for any construction team. Whether it's for residential, commercial, or infrastructure projects, the Concrete Pump Truck excels in meeting the concrete pumping needs with precision and reliability.

Features:

Product Name: Used Concrete Pump Truck

Keyword: Concrete Pump Truck

Sling Type: Rack

Type: 2025 Concrete Mixer Pump Truck

Slewing Angle: $\pm 270^\circ$

Marketing Type: Ordinary Product

Technical Parameters:

Emission Standard	Euro 3
Power	324 KW (441 HP)
Max Vertical Reach	36.2m
Boom Model	M37z
Max Concrete Output	180 M3/h
Boom Length	39 Meters
Pressure	12Mpa
Depth	40.2m
Axle Config	3 Axle

Applications:

Sany SYM5445THB Used Concrete Pump Truck is a versatile and efficient product suitable for a variety of construction projects. With a maximum vertical reach of 36.2m, this concrete pump truck is ideal for reaching tall structures and buildings. The $\pm 270^\circ$ slewing angle provides flexibility and precision during operation.

Product Application Occasions and Scenarios:

- Construction Sites: The Sany SYM5445THB concrete pump truck is perfect for use on construction sites of all sizes. Whether it's building high-rise structures or laying foundations, this product can meet the demands of various construction projects.
- Infrastructure Projects: Truck mounted concrete pumps are essential for infrastructure projects such as bridges, roads, and tunnels. The Sany concrete pump truck offers efficiency and reliability, making it a valuable asset for such endeavors.
- Residential Construction: For residential construction projects, the Sany SYM5445THB can be used to pour concrete for foundations, walls, and other structural elements. Its rack sling type ensures safe and secure operation, making it suitable for residential settings.
- Commercial Buildings: When working on commercial buildings like office complexes, malls, and industrial facilities, the Sany concrete pump truck provides the reach and maneuverability required to complete the job efficiently.

With a marketing type of Ordinary Product, the Sany SYM5445THB offers a cost-effective solution for concrete pumping needs. The minimum order quantity is 1, and pricing is negotiable, making it accessible for a wide range of customers. Delivery time is quick, with

orders typically fulfilled within 7 days.

Overall, the Sany SYM5445THB Used Concrete Pump Truck is a reliable and high-performance product that can handle various construction tasks with ease. Its durable construction and advanced features make it a valuable asset for any construction project requiring the use of a concrete pump truck.
