

Used Concrete Pump Truck 36.2m Reach 12Mpa Pressure Euro

3

Our Product Introduction

for more products please visit us on hnhzmachinery.com

Basic Information

- Brand Name: Sany
- Model Number: SYM5445THB
- Minimum Order Quantity: 1
- Price: Negotiate
- Packaging Details: N/A
- Delivery Time: 7 Days

Product Specification

- Depth: 40.2m
- Elevator Door: Center Opening Door
- Axle Config: 3 Alex
- Max Concrete Output: 180 M3/h
- Emission Standard: Euro 3
- Pressure: 12Mpa
- Sling Type: Rack
- Boom Model: M37z
- Highlight: used concrete pump truck 36.2m reach,
concrete mixer pump truck 12Mpa pressure,
2025 concrete pump truck for business

Product Description

Product Description:

Are you in need of a reliable concrete pumping solution for your construction projects? Look no further than our top-quality Used Concrete Pump Truck. This powerful machine is equipped with impressive features to meet your concrete pumping needs efficiently and effectively. Featuring a robust Power of 324 KW (441 HP), this Used Concrete Pump Truck is a powerhouse when it comes to delivering concrete with precision. Whether you are working on a small-scale project or a large construction site, this machine's power ensures that your concrete pumping tasks are completed smoothly.

One of the standout features of this Used Concrete Pump Truck is its impressive Boom Length of 39 Meters. With such a long reach, you can easily access and pump concrete to various heights and distances on your construction site. This extended boom length provides you with the flexibility and versatility needed to tackle a wide range of projects.

Equipped with a durable Sling Type of Rack, this concrete pump truck ensures secure and reliable concrete pumping operations. The rack sling type enhances the stability and safety of the pumping process, allowing you to work with confidence knowing that your materials are being handled securely.

When it comes to accessibility and convenience, the Elevator Door of this Used Concrete Pump Truck is designed with a Center Opening Door. This user-friendly feature makes it easy to load and unload materials, saving you time and effort during your construction tasks. The center opening door provides a smooth and efficient operation, enhancing the overall productivity of your worksite.

Furthermore, this Used Concrete Pump Truck complies with the Emission Standard of Euro 3, ensuring that it meets environmental regulations and reduces harmful emissions. By choosing this eco-friendly concrete pump truck, you can contribute to a cleaner and greener construction site while maintaining high performance and efficiency.

Whether you are a contractor, builder, or construction professional, the Used Concrete Pump Truck is a reliable and cost-effective solution for your concrete pumping needs. With its powerful engine, extended boom length, secure sling type, convenient elevator door, and eco-friendly emission standard, this concrete pump truck offers a comprehensive package of features to enhance your construction projects.

Don't miss out on the opportunity to own this high-quality Used Concrete Pump Truck and elevate your concrete pumping capabilities to new heights. Invest in this beton Pump today and experience the difference it can make in your construction operations.

Features:

Product Name: Used Concrete Pump Truck

Boom Model: M37z

Power: 324 KW (441 HP)

Slewing Angle: $\pm 270^\circ$

Pressure: 12Mpa

Max Vertical Reach: 36.2m

Technical Parameters:

Emission Standard	Euro 3
Boom Model	M37z
Max Vertical Reach	36.2m
Sling Type	Rack
Axle Config	3 Alex
Marketing Type	Ordinary Product
Pressure	12Mpa
Type	2025 Concrete Mixer Pump Truck
Max Concrete Output	180 M3/h
Keyword	Concrete Pump Truck

Applications:

Sany SYM5445THB Truck-mounted Concrete Pump is a versatile and efficient solution for various construction projects. With a maximum vertical reach of 36.2m and a depth of 40.2m, this concrete pump truck is suitable for a wide range of applications.

Product Application Occasions and Scenarios:

High-rise Building Construction: The Sany concrete pump truck is ideal for delivering concrete to tall structures, ensuring smooth and efficient construction processes.

Bridge Construction: The long reach and high pressure capabilities of this concrete pump truck make it perfect for bridge construction projects where precise concrete placement is crucial.

Infrastructure Development: Whether it's for roads, tunnels, or dams, the Sany SYM5445THB can handle various infrastructure projects with ease.

Residential Construction: From foundations to multi-story buildings, this truck-mounted concrete pump offers flexibility and reliability for residential construction applications.

Commercial Projects: For shopping centers, office buildings, and other commercial developments, the Sany concrete pump truck ensures efficient concrete pouring on site.

Designed with a pressure rating of 12Mpa and a sling type of rack, the Sany SYM5445THB concrete pump truck guarantees high performance and durability. The minimum order quantity is 1 unit, and pricing is negotiable, making it accessible for both small and large-scale construction projects. The delivery time is quick, with orders typically fulfilled within 7 days.

Whether you are a construction contractor, developer, or project manager, the Sany concrete pump truck is a reliable and cost-effective solution for your concrete pumping needs. Invest in this versatile equipment to enhance productivity and efficiency on your construction sites.
