

2025 Concrete Mixer Pump Truck 39m Boom Euro

3

Our Product Introduction

for more products please visit us on hnhzmachinery.com

Basic Information

- Brand Name: Sany
- Model Number: SYM5445THB
- Minimum Order Quantity: 1
- Price: Negotiate
- Packaging Details: N/A
- Delivery Time: 7 Days

Product Specification

- Slewing Angle: $\pm 270^\circ$
- Boom Length: 39 Meters
- Keyword: Concrete Pump Truck
- Axle Config: 3 Alex
- Pressure: 12Mpa
- Type: 2025 Concrete Mixer Pump Truck
- Emission Standard: Euro 3
- Elevator Door: Center Opening Door
- Highlight: **used concrete mixer pump truck,
concrete pump truck with warranty,
2025 concrete mixer truck**

Product Description:

A Used Concrete Pump Truck is a valuable asset in the construction industry, offering efficiency and convenience in delivering concrete to various job sites. One such model is the 2025 Concrete Mixer Pump Truck, known for its reliability and performance. With a maximum concrete output of 180 cubic meters per hour, this Truck-mounted Concrete Pump is ideal for large-scale projects that require a high volume of concrete to be poured quickly and efficiently. The impressive output capacity ensures that construction timelines are met, and deadlines are kept on track.

The key advantage of a Concrete Pump Truck lies in its ability to transport and pump concrete directly to the desired location, eliminating the need for manual labor and reducing the risk of material wastage. This makes the 2025 Concrete Mixer Pump Truck a cost-effective solution for construction companies looking to streamline their operations.

Equipped with a boom length of 39 meters, this Concrete Pump Truck offers excellent reach and flexibility on the job site. The extended boom allows for precise placement of concrete, even in hard-to-reach areas, making it a versatile tool for construction projects of all sizes. Operating at a pressure of 12Mpa, the 2025 Concrete Mixer Pump Truck ensures consistent and reliable performance, delivering concrete with precision and accuracy. The high pressure capability of the pump allows for greater control over the flow of concrete, resulting in smooth and even pours that meet quality standards.

Whether you are working on a residential building, commercial complex, or infrastructure project, a Used Concrete Pump Truck like the 2025 Concrete Mixer Pump Truck offers the power and efficiency needed to complete the job with ease. Its versatility, speed, and reliability make it a valuable asset for any construction team.

In conclusion, the 2025 Concrete Mixer Pump Truck is a top-of-the-line Truck-mounted Concrete Pump that combines power, precision, and performance in one robust machine. With its impressive concrete output, extended boom length, and high-pressure capacity, this Concrete Pump Truck is designed to meet the demands of modern construction projects.

Investing in a quality Used Concrete Pump Truck can significantly improve workflow efficiency, reduce labor costs, and enhance overall project productivity. Whether you are a contractor, builder, or developer, having a reliable Concrete Pump Truck like the 2025 Concrete Mixer Pump Truck in your fleet will give you a competitive edge in the construction industry.

Features:

Product Name: Used Concrete Pump Truck -----

Boom Length: 39 Meters

Max Vertical Reach: 36.2m

Sling Type: Rack

Elevator Door: Center Opening Door

Technical Parameters:

----- Technical Parameter -----	----- Value -----
Sling Type	Rack
Type	2025 Concrete Mixer Pump Truck
Emission Standard	Euro 3
Boom Model	M37z
Pressure	12Mpa
Power	324 KW (441 HP)
Boom Length	39 Meters
Axle Config	3 Axle
Elevator Door	Center Opening Door
Max Vertical Reach	36.2m

Applications:

The Sany SYM5445THB used concrete pump truck is a versatile and powerful machine suitable for a variety of construction projects. -----

With a maximum vertical reach of 36.2m, this concrete pump truck is ideal for reaching high-rise structures and hard-to-access areas.

Product Application Occasions and Scenarios:

- Construction Sites: The Sany SYM5445THB concrete pump truck is perfect for construction sites where concrete needs to be efficiently and accurately pumped to desired locations. Its boom model, M37z, provides flexibility and precision in pouring concrete for various structures.
- Building Renovations: When renovating buildings, the used concrete pump truck can help in pumping concrete to different floors and areas easily, saving time and labor costs.
- Infrastructure Projects: For infrastructure projects such as bridges, roads, and dams, the Sany concrete pump truck can streamline the concrete pouring process, ensuring quick and efficient construction.

The minimum order quantity for the Sany SYM5445THB is 1, making it accessible for both small and large-scale construction projects. The price is negotiable, allowing for flexibility in budgeting. The delivery time of 7 days ensures that the product can reach the customer promptly to meet project timelines.

With an emission standard of Euro 3, the Sany concrete pump truck is environmentally friendly while delivering high performance. This ordinary product is marketed to cater to various construction needs, making it a reliable choice for contractors and construction companies.
