

Used Concrete Pump Truck 39m Boom 12Mpa Pressure

Basic Information

- Brand Name: Sany
- Model Number: SYM5445THB
- Minimum Order Quantity: 1
- Price: Negotiate
- Packaging Details: N/A
- Delivery Time: 7 Days

Product Specification

- Pressure: 12Mpa
- Sling Type: Rack
- Elevator Door: Center Opening Door
- Keyword: Concrete Pump Truck
- Boom Length: 39 Meters
- Max Vertical Reach: 36.2m
- Type: 2025 Concrete Mixer Pump Truck
- Depth: 40.2m
- Highlight: **used concrete pump truck with 3 axle,
affordable concrete pump truck rack sling,
used concrete pump truck rack type**

Product Description

Product Description:

A used Concrete Pump Truck is a valuable piece of equipment in the construction industry, offering efficiency and precision in concrete placement. This particular model features a pressure rating of 12Mpa, ensuring the smooth and consistent flow of concrete during operations.

One of the standout features of this Concrete Pump Truck is its impressive slewing angle of $\pm 270^\circ$. This wide range of motion allows for greater flexibility in positioning the boom, making it easier to reach various areas of the construction site with precision.

Equipped with a robust power output of 324 KW (441 HP), this Concrete Pump Truck delivers the performance needed to handle demanding concrete pumping tasks with ease. The high power rating ensures efficient operation and consistent output, even when working on large-scale projects.

The boom length of 39 meters on this Concrete Pump Truck provides an extensive reach, making it suitable for a wide range of construction projects. Whether it's a high-rise building or a large infrastructure project, this truck-mounted concrete pump offers the reach and versatility needed to get the job done efficiently.

Truck-mounted concrete pumps like this one are essential equipment for any construction site that requires efficient and precise concrete placement. The versatility and mobility of a concrete pump truck make it ideal for navigating tight spaces and reaching elevated areas with ease.

When it comes to concrete pumping, having the right equipment can make all the difference in the efficiency and quality of the construction process. This Concrete Pump Truck offers the reliability and performance needed to streamline concrete placement, saving time and labor costs on the job site.

With its impressive pressure rating, wide slewing angle, powerful engine, and long boom length, this used Concrete Pump Truck is a valuable asset for any construction company looking to enhance its concrete pumping capabilities. Whether it's for residential, commercial, or industrial projects, this truck-mounted concrete pump delivers the performance and precision required for successful concrete placement.

Investing in a quality Concrete Pump Truck like this one can improve the overall efficiency and productivity of construction projects, reducing downtime and labor costs while ensuring precise and consistent concrete placement. With its advanced features and durable construction, this truck-mounted concrete pump is designed to meet the demands of the modern construction industry.

In summary, this used Concrete Pump Truck is a reliable and high-performance piece of equipment that offers exceptional pressure rating, wide slewing angle, powerful engine, and long boom length. Ideal for a variety of construction projects, this truck-mounted concrete pump provides the versatility, mobility, and precision needed to streamline concrete placement and enhance overall project efficiency.

Features:

Product Name: Used Concrete Pump Truck

Boom Length: 39 Meters

Type: 2025 Concrete Mixer Pump Truck

Marketing Type: Ordinary Product

Keyword: Concrete Pump Truck

Max Concrete Output: 180 M3/h

Technical Parameters:

Pressure	12Mpa
Slewing Angle	$\pm 270^\circ$
Boom Model	M37z
Boom Length	39 Meters
Sling Type	Rack
Power	324 KW (441 HP)
Emission Standard	Euro 3
Type	2025 Concrete Mixer Pump Truck
Elevator Door	Center Opening Door
Depth	40.2m

Applications:

When considering the application occasions and scenarios for the Sany SYM5445THB Used Concrete Pump Truck, it is important to highlight its versatility and efficiency in various construction settings. This truck-mounted concrete pump is a reliable and powerful solution for pumping concrete in a wide range of projects.

With a power of 324 KW (441 HP) and a pressure of 12Mpa, this concrete pump truck is suitable for demanding construction sites where precision and speed are crucial. Whether it is a large-scale commercial project or a smaller residential construction, this truck mounted concrete pump can deliver the necessary concrete efficiently.

The Sany SYM5445THB Used Concrete Pump Truck is an ideal choice for construction companies looking to enhance their productivity

and streamline their operations. Its compact design and maneuverability make it suitable for urban construction sites with limited space, while its high power ensures continuous and reliable concrete pumping.

Construction scenarios where this used concrete pump truck excels include high-rise building construction, infrastructure projects, road construction, and more. Its flexibility and ease of operation make it a valuable asset on the job site, allowing for efficient concrete placement and reduced labor costs.

Whether used for pouring foundations, walls, slabs, or other concrete structures, the Sany SYM5445THB Concrete Pump Truck delivers consistent performance and precision. Its quick setup time and easy operation make it a practical choice for contractors looking to maximize their efficiency and meet tight project deadlines.

Available for a minimum order quantity of 1 unit and with a negotiable price, this truck-mounted concrete pump offers a cost-effective solution for construction companies of all sizes. With a delivery time of 7 days, customers can rely on prompt availability of this reliable and durable equipment.

In conclusion, the Sany SYM5445THB Used Concrete Pump Truck is a versatile and efficient solution for a wide range of construction applications. Whether used in large-scale commercial projects or smaller residential developments, this truck-mounted concrete pump delivers the power, precision, and reliability required to get the job done.
